4. Kukum market
5. Nusaupe quarantine site
6. ISDT training in Auki
7. Announcement

CAUSE Project to clean under pass.

Beginning July 2020, CAUSE Project will take the responsibility of cleaning up the underpass next to the central market. The cleaning will occur every evening after the closing of the underpass. Cleaning will be done everyday Monday to Friday except for weekends. There will also be scrubbing off the walls twice a month. CAUSE contracted groups who usually do the street cleaning around the city each evening will be the ones to do the cleaning. The underpass will be close every evening and re-open in the morning on the next day. CAUSE Project on-behalf of the Honiara City Council calls upon every good citizen of Honiara city to keep the underpass clean at all times and to show respect towards our infrastructures.

New Jacobs ladder about to complete

The new Jacobs ladder behind the Gizo JFK stadium is almost reaching its final step into the main road. At this stage the contractors are working hard building up the walls using gabion basket while others putting up the rails. It is expected to complete around mid next week. Already people passing by are commenting positively to this new development. One of the women living up the top hill said life will be much easier compared to the past when they used to climb up the muddy road. With this new ladder it is like going out from a car and step into the house. She praised CAUSE project for the ladder.

Profiling of Munda Market

The construction of Munda jetty and market has started this week. Already the contractors are busy each day doing their work. Profiling of the market already done and fencing of a temporary shed to store materials. Many facebook users already acknowledging and appreciating CAUSE work in rebuilding the Munda market and the inclusion of jetty.

Kukum Market Update

The construction of Kukum market is progressing well with the slabbing of basement. Procurement of materials for CAUSE contribution into the project is well taken care of. Work is progressing well and we should be able to fill in our part to the project pretty soon. The market once completed it will be a facelift to Kukum resident but also the main source of local food to the eastern side of Honiara.

Nusatupe Quarantine Centre

Work on the improvement of water system in Nusatupe quarantine site in Gizo is progressing well. This week contractors slabbed the basement of the water tank. Statement from the Western Provincial government said the project is important as it will help water system for quarantine people on the Island.

ISDT training in Auki

Today is the final and a graduation day for ISDT training in Auki. Some of the young boys spoken to last week on the their first day of the training said they were very happy to be part of the training. The training has opened their mind and hope to utilise what they learnt into practice.
