

# Weekly Wrap-Up Newsletter

The weekly wrap-up newsletter is a platform to link and update staff and project stakeholders on the happenings in all Project Implementation Units (PIUs) and Project Management Unit (PMU) on the progress of projects CAUSE implemented in various communities of Honiara, Guadalcanal (areas outside of town boundary), Auki, Gizo, Noro and Munda.

**Issue 36, 12th February 2021** Salvador Jiao completed his tenure with CAUSE

## Inside this issue.

1. Former CAUSE PM left
2. New CAUSE PM assume office
3. Donation to Gizo town council
4. Visat for PIUs
5. Footpath in Auki
6. ISDT training in Honiara
7. News/ Announcement.

Salvador Jiao the champion of REP and CAUSE Project tenure in office has come to an end.

In his message to CAUSE staff he said its an opportunity to work in Solomon Islands and thanked staff for the good work during his ten years of service in the Solomon Is.

Salvador said working in Solomon Islands is the best years of his life, and he have enjoyed them a lot together as a team.

Salvador hopes that when circumstances improves he will make one more trip to Honiara to say a proper goodbye to all.

Salvador will still be around providing advisory roles to CAUSE Project.

## CAUSE new Project Manager assume Office

The incoming new Project Manager for CAUSE component one has finally assume office today here in Honiara head office.

Mr. Crisanto Afable Jr is not new in Solomon Islands. Cris has been with the CRISP Project at some stage.

Cris has taken over from Salvador Jiao who's tenure in office lapse yesterday.

In his message to CAUSE staff Cris said it is an honor to be the next Project Manager for CAUSE.

Let's continue to maintain the same focus, dedication and will to perform, something that you guys have toiled with Salvador together to achieve great results from the very start (and to some who joined the team in the recent years, but with equally valuable inputs.

These are the kind of qualities that have brought CAUSE (and REP) to maintain a high level of viability from year to year. With the same teamwork and dynamics under my watch, let's keep the bar at that level as we move forward.

## Donation to Gizo Town Council

CAUSE GIZO Project Implementation Unit (PIU) handed over 3 wheel bins to the Gizo Town Council clerk. Gizo town clerk Charles Kelly was impressed and thanked the CAUSE Gizo PIU. Kelly said the bins will be stationed at the Gizo Main wharf, so that the incoming ships can dump off their garbage's in it, instead of living them lying around the wharf area.

## Visat installation at Noro Office

Providing up to date information to our MIS system remains a big challenge to the project. Because of this the project has purchase a new sets of visat for the three PIUs; Auki, Noro and Gizo. Installations are currently going on in Gizo and Noro to be followed by Auki.

## New footpath in Auki Progressing well.

The Auki new footpath that runs from court house to the provincial office is progressing well. Work has been slowed down since the wet weather continue through out the country. As soon weather improves the local workers will complete the last section of the footpath.

## Honiara ISDT training

A total of 42 participants will be graduating today following a 7 days intensive ISDT training that has started last week through to this week. The participants come from Gilbert Camp, Tada'i and Taba'a. The participants look forward to engage in CAUSE projects in the future.

## News / Announcements

1. The government is preparing for a nationwide vaccination campaign against COVID-19.
2. Emergency department at the national referral hospital needs more attention. It is very sad to see people sleeping with drips in their hands outside the outpatient in an open space, and others lying on the bare floor with no proper beddings a report claimed.
3. As bad weather continues there are lot of plastics and bottles been floated everywhere just remind our cleaning groups to take note of and clean them up.
4. Be careful whenever go out to project sites as bad weather continues to affect our country.
