## Barana water source improvement

Work on Barana community public space improvement is going on well. The public space improvement covers improved water catchment and wash bay for the community. It will allow better washing area with more people at one time. Full completion of the project is expected to be around mid next month.

## Mata Valley footbridge

New footbridge at Matavalley of lower Kolaridge in central Honiara is progressing well. The new footbridge constructed mainly by women is in the final completion stage.

## Water source improvement at Aekapo

Aekapo/ Gilbert camp community of East Honiara soon will have a clean water for their community. Workers are currently working hard to secure their water source. Work is going on and expected to complete by next month.

Work on the ablation block at Kiluufi hospital in Auki, Malaita Province is progressing well. Currently workers are working on the foundation and over the coming weeks they will do the concrete works and on to other tasks. The ablation block will be use by the COVID centre.

**Noro market jetty completed**

The Noro market jetty is fully completed. The jetty will help the market vendors to unload their products and provide a safer landing especially for women. Work will continue on slabbing the fish market area. Handing over of these facilities is expected next month.

A new notice board has been erected in front of the Gizo office. The notice board will help the general public to get latest information of the project.

**White River school access road improvements**

White River School now has weather road. No more ponding during rainy days. Students can now be able to walk freely into the classrooms after the project compacted their walk way with limestone gravel.

**News/ Announcements.**

1. Australia and Solomon Islands have held a ground-breaking ceremony in the Shortland Islands for the Western Border and Patrol Boat Outpost yesterday.
2. The New Zealand funded 28,800 doses of AstraZeneca vaccines arrived in the country.
3. Solomon Islands has zero COVID 19 after the release of quarantine patients last week.
4. Government officials have successfully completed their round of dialogues to enhance quality education and training needs in the country.
5. Rain is current for Honiara and some parts of the country therefore all workers are advised to take extra care when in the field and when handling of machines as accident might occur.
