

Weekly Wrap-Up Newsletter

The weekly wrap-up newsletter is a platform to link and update staff and project stakeholders on the happenings in all Project Implementation Units (PIUs) and Project Management Unit (PMU) on the progress of projects CAUSE implemented in various communities of Honiara, Guadalcanal (areas outside of town boundary), Auki, Gizo, Noro and Munda.

Issue 69, 1st October 2021

Aekafo water source handed over

Inside this issue.

1. Aekafo water source handed over
2. Noro fish market
3. Auki TopHill Jacob's Ladder
4. Gizo drainage system
5. Noro ISDT post training
6. Munda Shoreline Protection
7. Gizo - BP Footbridge

Aekafo community of east Honiara this afternoon received the most gift in life a new water source at their disposal. The community was very pleased with their improved water facility that was handed over today by CAUSE Project.

The washing bay on the newly built water source.

Children enjoying swimming on the newly handed over water source.

Noro fish market

Work on the final section of the Noro fish market is progressing well. All outstanding small job will be done next week then the market is ready to be handed over to the province later this month.

Auki TopHill Jacob's Ladder

TopHill Jacob's ladder is progressing well, so far it almost reach the second section of the stiff hill. It's a bit challenge for women to carry up bag of gravels and cement but they are enjoying it as they would like to see the ladder to complete to help those people living in and around the top hill to access services in town easily.

Drainage in Gizo

Drainage improvement along the Gizo school is continuing well. Currently workers are working on concrete slabbing of the drainage. Once the work is completed it will help the flow of water to the right place.

Noro post ISDT Training

Last week a post awareness training was conducted for Noro ISDT participants. The awareness was conducted by a nurse officer of Noro clinic. The awareness covers important topics to that will help the young to make an informed choice in their lives.

Munda Shoreline Protection

Pouring of concrete is currently underway on the Munda shoreline protection wall. Team are working hard to complete the project ahead of the timeline which is two weeks time. Once the wall is completed it will help farmers and fishermen to securely place their boats around it.

Gizo - BP Footbridge

The railing of the newly completed footbridge at BP in Gizo has been completed. Currently the workers are doing final work and cleaning up.
