The CAUSE 7th Implementation support mission concluded this week. On Wednesday the mission went through the Aide De Moiré. Over-all the project did well this quarter with satisfactory. The project is looking forward for the same in the coming quarter comes 2022.

Chipuchau climate resilience road in progress

The climate resilience road construction at Chipuchau in skyline drive of central Honiara is progressing well at the moment. First lane is almost completed. By next week workers will work on the second lane.

Streeting cleaning in Honiara

The cleaning services of the project has resumed after the social disturbance last week. Currently, the workers are deployed from White River in west Honiara to Alligator in the east .

Gizo -Corner shop Jacobs ladder

The corner shop Jacob's ladder at Gizo is near completion. There are few more small jobs to be done then it should be fully completed. Currently residents of TC area are enjoying walking on the new ladder which is more comfortable than before.

APS Footbridge to sch completed

The entrance to Auki Primary School in Auki, Malaita Province has completed. The entrance is a facelift for the school. In the past students have to go down into the filthy drainage and across to the school.

Kiluufi fencing Progressing

The fencing of Kiluufi quarantine centre for medical officers is progressing well and into the final completion stage. The centre will be used by medical officers as isolation centre.

Cleaning up at Noro Market

Cleaning up is currently underway at Noro market ahead of the official handing over of the market to the province next week. The handing over will be grace by the Honiara City Clerk, PS Ministry of Infrastructure Development and officials from UN Women, World Bank and the project.
