Component 2 of the project is set to start in Gizo soon. Yesterday the team members had their induction ahead of their engagement in the coming week.

Progress of JF Kennedy stadium abluion block

Preparation is underway for roof truss and installation of roofing iron in the coming days. Thereafter work will kick off in the interior of the building.

Construction of Storage shed at Noro

Work is currently underway in Noro on the construction of storage shed for the component 2 which will kick off soon. Component 2 will involve labour base construction of concrete roads on stiff section (roads).

Gizo -MSG Building fencing

The MSG building fencing is due to complete today. The fencing is needed to keep safe market vendors produce and belongings while in Gizo to sell their products at the market. In the past people going in and out of the building so its not safe. Now that the fence is erected market vendors are more comfortable to be in that building.

Rhoda life change story.

Rhoda a person living with disability currently grade 3 students of Alotaa school in Auki was able to attend back class after a year break. Rhoda said she cant go to school because she finds it hard to use her wheelchair on the muddy road. This year she enrol back after she learnt of the new footpath that enables her to access school easily.

Auki - St Pauls Kindy School

A female teacher at St Paul's Kindy in Auki yesterday came out to thanked the project for the provision of footpath for the school children. She said in the past the children are not safe walking around the school as the area was muddy. With the footpath children are more comfortable in playing around the area.

Literacy Training in Lilisiana, Auki

A literacy training is currently going on at Lilisiana of Auki. The trainings has offered a lot of insights for those illiterate women in the village. One woman spoke to said she can now read and understand things better than before.
